BUSINESS LAW TO BE TAUGHT AT THE Y. M. C. A.

The night school classes at the Young Men's Christian Association will be open for the New Year term on Monday, January 6, at which time the regular work in the commercial and other departments will be resumed.

A class in business law will be organized and efforts are now being made to secure one of the leading attorneys of the city to act as instructor. A large number of the young men now attending the classes have expressed a desire to enroll in such a class, and it is expected that it will become a permanent feature. Inquiries have also been made regarding a course in salesmanship and advertising, and it is expected that instruction along these lines will be started at an early date.

The total enrollment of the night school classes to date is 180, and this number will probably be increased to 200 by the beginning of the new term.

Y. M. C. A. PLANS FRESH CAMPAIGN

The membership committee of the Young Men's Christian Association is planning a rousing campaign to secure additional members to the association, and met this noon in Cooke Hall to discuss the preliminary arrangements.

It was decided by those present to make the campaign a one-day affair, and to secure the cooperation of a number of the leading business men of the city, many of whom have already promised to give their time. All the activities of the association will be resumed with renewed energy after the first of the year, and the committee finally decided that this would be the proper time for the holding of the campaign. Charles R. Frazier was named to take charge of the publicity, while A. H. Tarleton and George Hanta will form the committee on making arrangements for the downtown headquarters on window displays. A. E. Larimer was appointed chairman of the committee on securing the names of prospective members, and Paul Super and A. H. Tarleton for the committee on soliciting. Chairman Ed Towse, of the membership committee, together with M. G. Johnstone will have charge of laying out the city in districts for the solicitors.

No special date has been set as yet for the holding of the campaign, but it will probably be some day near the first of the New Year. When the campaign is brought to a close it is expected that at least two hundred new members will have been added to the already large list.

The Newfoundlanders kill seals each spring to the number of from 200,000 to 250,000. These seals are chiefly valuable for the oil extracted from their fat, and are very different from those hunted on the Pacific coast, which are sought for their fur.

The Fallacy of Buying a "Discount" Automobile

65 miles an hour. To 58 miles an hour in 30 seconds, from standing start.

When You Buy an Automobile at Cut Price You Forfeit More Than You Gain

There are two kinds of "Discount" cars—those that are purposely listed at a high figure so that their price may be cut and those on which the dealer divides his profit. Cars of the first named class have no definite value. The prices at which they are sold are seldom the same to any two buyers. While you might receive a 10 per cent discount, as likely as not some other buyer is given a 20 per cent cut.

Since no two have paid the same price there is no basis of valuation if you ever wish to re-sell the car.

You should avoid the dealer who cuts his prices.

You cannot afford to patronize an automobile dealer or manufacturer who is not prosperous. A car is not of as much value if once having been represented in the community it no longer is sold there.

If dealers split their profits they must sooner or later go out of business. They cannot stand back of the car with the service it should have.

And after all, that is the biggest item to consider. Don't buy any car
